INTRODUCTORY.

We again present to our patrons and the public a new edition of the CAMBRIDGE DIRECTORY, No. 36 of the regular series, hoping it will give all the desired information required in such a work.

Every person should have, at their business place or residence, or both, a directory of the city, from time to time as published, not only as a daily convenience, but as a valuable record of local history.

We would respectfully call attention to our advertising department, where are represented the most reliable business houses in the city, and citizens would do well to patronize.

Americans visiting Europe will find our Directories on file at Messrs. Henry F. Gillig & Co.'s American Exchange and Reading Room, 449 Strand, Charing Cross, London, W. C., and 35 Boulevard des Capucines, Paris.

Persons consulting the Directory are reminded of the "importance" of knowing the precise spelling of a name before looking for it, as names pronounced the same are often spelled quite differently, and appear on different pages.

A directory of Harvard College, Professors and Students resident in Cambridge will be found on page 505.

We take this occasion to express our thanks for the uniform courtesy and important assistance afforded to our agents in collecting information for the present number.

The following shows the increase in names over last year:—

Names in Directory, 1887	26,180
" " " 1886	25,043
Increase	1,137

We remain, very respectfully,

INSTRUCTION TO KEY-HOLDERS.

Alarms are to be given from the box nearest the location of the fire.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go.

Each box contains a small bell which, if heard before you pull, indicates that the alarm has been previously given. Any person listening at a box will learn the number of the box from which the alarm was given but in no case will you pull the hook while the alarm is striking. After giving the alarm, remain at the box so as to direct the firemen to the fire. Be sure that you lock the box before leaving it. For instance, if an alarm proceeds from box 36, the bells and gongs attached will strike three; then, after a short pause, six consecutive blows, thus: III--IIIIII

Don't give an alarm for a fire seen at a distance, unless assistance is called for.

SIGNAL FOR NO SESSION OF THE GRAMMAR AND PRIMARY SCHOOLS ON DAYS OF SEVERE STORMS.

The signal is five strokes of the fire alarm repeated once.

When given at 8.15 A.M., the morning session of the grammar and primary school will be omitted.

When given at 11.45 the morning session of the grammar schools will be prolonged one hour, and the afternoon session of the grammar and primary schools will be omitted.

When given at 12.45 the afternoon session of the grammar and primary school will be omitted.

Citizens are earnestly requested to inform themselves where keys to the signal boxes are kept, signs suitably inscribed, being placed over each box, giving the requisite information.

Rates of postage to foreign countries other than as above, being subject to change each month, inquiry should be made at the stamp window for ruling rates, before mail is deposited in the office.

All mail matter, except letters, must be so wrapped or enveloped, that their contents may be readily and thoroughly examined by postmasters, without destroying the wrappers,

STAMPED ENVELOPES.

The attention of the public is called to the auvantage of using stamped envelopes rather than postage stamps. Daily numbers of letters are dropped in the post-office without prepayment with revenue stamps, and stamps cut from stamped envelopes affixed, which are held for postage; whereas by the use of stamped envelopes, these letters would go forward without delay, Persons purchasing stamped envelopes of any denomination, in quantities of 500 and upward may have request to return in a specified time printed thereon, free of charge. All stamped envelopes damaged by having been improperly addressed, will be redeemed at this office, provided the stamps thereon have not been effaced.

SPECIAL DELIVERY SERVICE.

By recent Act of Congress, the special delivery system heretofore in effect only in cities and towns having a population of 4000 or upwards, has been extended to all post-offices in the United States, to take effect Oct. 1, 1886.

The privileges of the system have also been extended to all classes of mail matter instead of being confined to first-class matter.

Accordingly every article of mailable matter, mailed at any post-office in the United States, to which is affixed a 10 ct. special delivery stamp in addition to regular postage, will be delivered at Letter Carrier offices within the carrier limits, immediately on arrival between the hours of 7 A.M. and 11 P.M., and at any other post-office within a one mile radius between the hours of 7 A.M. and 9 P.M.

LETTER SHEET ENVELOPES.

INVALIDS' ROLLING

—AND—

BATH CHAIRS.

TRUSSES,

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. **N. B.**—Ladies attended by those of their own sex.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity; the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee caps, and anklets. Unusual sizes made to order. Also,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Feet, etc. Also, Crutches of various and most improved kinds; Syringes' Rubber Urinals to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles, and Conversation Tubes for the Deaf.

"1503. CODMAN & SHURLTEFF, Boston, Mass. One Case Surgical Instruments and Atomizers

"The Committee have no hesitation in awarding for this superb exhibition the highest premium * * * The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture.

GOLD MEDAL. (Signed). GILMAN KIMBALL, M. D. Chairman."
